HR Actions & Recommendations

Based on Attrition, Performance & Satisfaction Insights

HR Action Plan

1. Improve Work-Life Balance

- Introduce flexible hours
- Reduce overtime
- Explore hybrid options

2. Compensation Adjustments

- Increase salary for <3k band
- Offer commute allowances

3. Strengthen Engagement & Recognition

- Conduct quarterly check-ins
- Provide career growth pathways

4. Training & Development

- Increase training for employees with <2 sessions
- Personalized development plans

5. Support High-Risk Roles

- Special retention programs for Sales & Research
- Balance workload through support staff

Top Findings

- Attrition highest among Sales, Research Scientist & HR roles.
- Employees aged **25–34** show highest exit rate.
- Low Work-Life Balance (1–2) strongly increases attrition.
- Environment Satisfaction below 3 correlates with high turnover.
- Overtime employees have significantly higher attrition.
- Low salary band (<3k) employees leave more often.
- Job Levels 1–2 show highest turnover.

High-Impact Recommendations

1. Reduce overtime (largest impact).
2. Improve Work-Life Balance programs.
3. Salary revision for <3k band employees.
4. Increase training for low-experience employees.
5. Focus retention on Job Level 1–2 employees.

Summary

Overall attrition is driven by workload, compensation, work-life balance, and satisfaction factors. Focused interventions in these areas can reduce turnover and improve employee retention significantly.
